

HYDROFLOW

LEADING WITH KNOWLEDGE

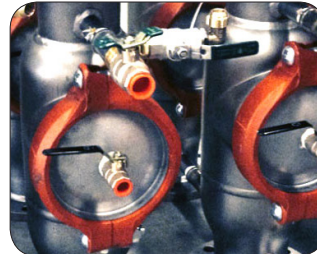

LEADING WITH KNOWLEDGE

Hydroflow was established in 1985 and operates from modern purpose built warehousing and distribution facilities in Auckland Christchurch and Melbourne.

Hydroflow distributes many of the world's leading industrial brands in New Zealand and Australia, each of these have been selected not only on product innovation and quality, but also on the quality and availability of industry leading technical support.

We pride ourselves on being able to add value to every project with which we become involved, with specialist technical knowledge and experience.

Our Brands

Hydroflow offers products from both leading international and New Zealand manufacturers. With over 9,000 line items in stock.

Suppliers rely on Hydroflow to establish and develop their brands in New Zealand. Our success in achieving this is reflected in the strength of brands we represent.

A selection of our Key Brands

INSTALL A RHEEM™

Other Brands Include

Abey, Cimberio, Double Lin, Eurobatex, Fernco, Keefer Gas, Mistral, Norma, Studor

Hydroflow is well established in the rural sector with an impressive portfolio of water related products and brands and strong relationships with all the leading rural merchants. Hydroflow offers the best and widest range of trough valves, pipe fittings and other rural products designed specifically for the New Zealand market.

Hydroflow works actively with its manufacturers to assist in the development of new products that offer real benefits to the end user.

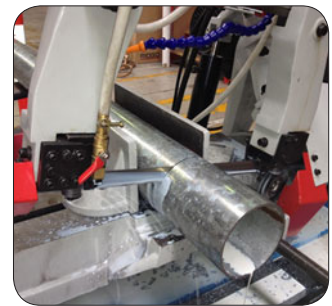

Hydroflow also distributes to all of New Zealand's leading plumbing merchants and is an active member of the NZPDA (New Zealand Plumbing Distributors Association)

Hydroflow actively supports its brands and merchant network through regular attendance at trade shows and other industry events. Hydroflow has in-house technical staff who conduct comprehensive training to both merchant staff and end users.

Managing Director Ken Breckon continues to place emphasis on training and retaining specialist staff to support Hydroflow products in the market. Staff focus on providing service and industry leading technical support.

Hydroflow provides speciality CPD training courses on backflow prevention, gas products, and water meters to upskill the industry.

Hydroflow operates a fabrication facility in Auckland, specialising in steel pipe work fabrication, welding and roll grooving.

With 16 specialist representatives servicing customers throughout New Zealand and a total of over 50 staff, Hydroflow continues to achieve growth through expansion into related market segments.

Hydroflow supplies world leading products to six key market segments; Fire Prevention, Plumbing, Rural, Irrigation, Heating and HVAC.
